Spark Plugs (2yr/30-40K)						
Ignition Wires (4yr/60K)						
Coolant Hoses (4yr/60K)						
Water Pump (6yr/100K)						
Oxygen Sensors (6yr/100K)						
Charcoal Canister (6yr/100K)						

Engine Oil

☐ **Petroleum-based** (Change every 3,750mi.) ☐ **Synthetic** (Change every 7,500mi.)

Oil Weight: _____ **Brand:** _____
(Example: 5W-30)

Record date/mileage in boxes below:

3.2017

Annual Inspection. Once a year, or every 15,000 miles, you should inspect drive belts, water pump and fan clutch, coolant hoses, suspension and steering linkages and joints, driveshaft flex discs, engine and transmission mounts, brake pads/rotors/calipers/hoses, exhaust systems, fluids, etc., looking for premature wear. Bavarian Otto has made a three-part DIY video that shows you how to perform these inspections yourself. You can watch it at blog.BAVauto.com/go/inspection.
