

BAVARIAN AUTOSPORT

OBC Illumination Installation Instructions

SAFETY WARNING: Be sure the ignition switch and light switch are in the OFF position before removing or attaching any electrical connectors.

3 Series

92 thru 98

PART NUMBER:

OBC ILLUM E36

PROCEDURE:

1. Remove the OBC by using your finger to push up on the release button on the bottom of the unit, through the access hole. Push the OBC out of the housing with your finger. If the OBC will not release, gently use a small screwdriver to pry between the bottom of the OBC and the lower trim (see Figure 1).
2. There are four illumination bulbs along the top of the OBC. Using needle-nose pliers, remove the burned-out bulbs and replace with the new ones (see Figure 2).
3. Insert the OBC into the opening and push it in until the bottom locking clip snaps into place.
