# Colored Emblem Inserts Installation Instructions

**NOTE:** Accurate placement of the emblem color stickers can be assisted by applying a spray of wetting solution to the emblem and the adhesive side of the color sticker. While this is not specifically required, it can help if you find that you are having trouble accurately placing the color stickers. We suggest a simple solution of one cup of water with a couple drops of dish soap (the exact ratio is not critical, but we do not want "soapy" water).

## All BMWs

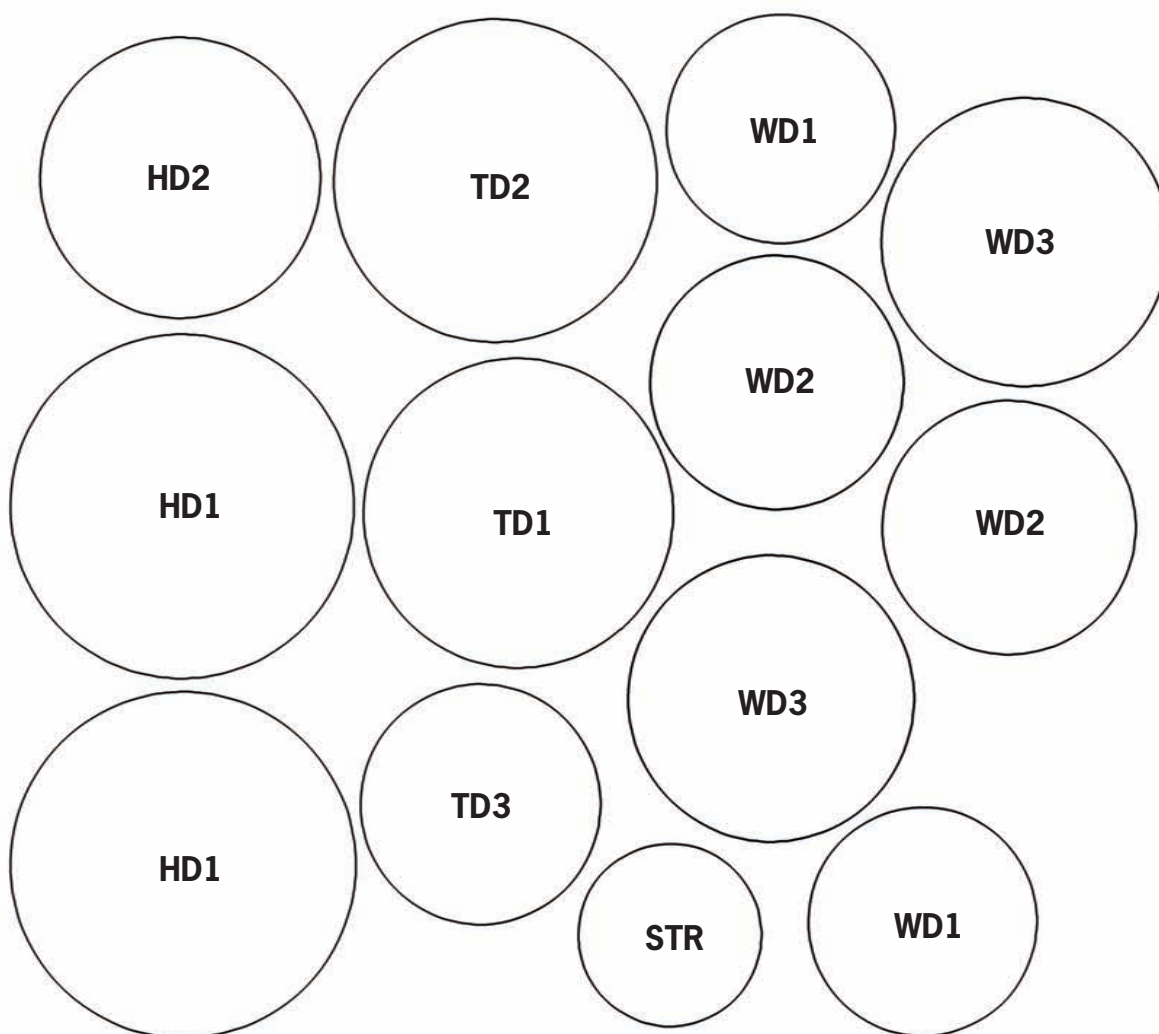

### PARTS LIST:

DS XXX (Various colors) – Emblem color insert kit

### PROCEDURE:

1. Clean all of your BMW's emblems with soap and water.
2. Determine the proper set of decals for each emblem (hood, trunk, wheels). See emblem application sheet for guidance.
3. Carefully bend the clear backing sheet at the corner of one of the color sections and lift the corner of the section from the backing sheet. Peel the color section from the backing sheet. It may help you to use the tip of a hobby knife (X-acto) to hold the corner of the color section. If you are using a wetting solution, apply it now (just a quick spritz on the emblem and on the adhesive side of the color sticker).
4. Carefully position the color sticker, aligning the two 90° straight edges with the emblem's outlines. Once you are sure the color sticker is properly aligned, gently press the corner down and work out toward the outer edge of the section, working the sticker flat and assuring there are no air bubbles. Do not press down the final corner/edge of the color sticker until you are satisfied with the overall positioning.
5. Work out the wetting solution (if used) and firmly work down the edges of the color sticker.
6. Continue on with the remaining color sticker sections.

**HD1** – Hood emblem: *All except Z4*

**HD1** – Trunk emblem: *2002 74 on, Bavaria, CS, 3 series thru 98, 5 series 77 thru 96 & 04 on, 6 series, 7 series thru 01, Z3 4/99 on, M roadster/coupe, Z4, Z8, X3, M1*

**HD2** – Hood emblem: *Z4*

Trunk emblem: *3 series touring 99 thru 05*

**TD1** – Trunk emblem: *3 series 99 on (except convertible, touring)*

**TD2** – Trunk emblem: *5 series 97 thru 03, 7 series 02 on, 8 series, X5 thru 06, Z3 thru 3/99*

**TD3** – Trunk emblem: *3 series 00 thru 06 convertible*
